

PROCEEDINGS

OF

THE SEVENTH NATIONAL CONFERENCE

ON

I. C. ENGINES AND COMBUSTION

January, 7, 8, 9, 1982

Department of Mechanical Engineering

KARNATAKA REGIONAL ENGINEERING COLLEGE

SRINIVASNAGAR (D. K.) 574157

Karnataka State, India.

CONTENTS

SUBJECT	TITLE OF THE PAPER	AUTHORS	PAPER NO.	PAGE NO.
Key-note Paper	Combustion Processes in Diesel Engines - An Update and Outlook.	B.S. Murthy	KN-1	KN-1.01
	The Indian Automobile Industry - Technical Achievements during the last Decade.	G.V. Kartiknaryanan	KN-2	KN-2.01
PART-I: I.C. ENGINES				
Alternate Fuels	Consumption Loop Tests with Gasolene and Rectified Spirit in the S.I. Engine	B.P. Reddy	AF-1	AF-1.01
	On the Operation of two Stroke Cycle Automotive S.I. Engines with Ethanol as the neat Fuel	R. Asokan P.K. Padmanabhan K. Balasubramanian T.R. Jagadeesha	AF-2	AF-2.01
	Performance of Spark Ignition Engines using Alcohol - Petrol Blends	S. Venukumar R. Ravikumar	AF-3	AF-3.01
	Experimental Investigation on the use of Alcohols and Vegetable Oils as Fuels for C.I. Engines	B.S. Nagarajiah K. Giriprakash Gopalakrishna Acharya	AF-4	AF-4.01
	Hydrogen as Supplementary Fuel in Multicylinder C.I. Engines	G.L. Varunny Thomas Chacko	AF-5	AF-5.01
	Fleet trials using Ethanol - Gasoline Blends in Scooters	N.R. Raju S.D. Saramathan R.K. Malhotra	AF-6	AF-6.01
	Use of Alcohol in High Speed Spark Ignition Engines	N.K. Sane K.K. Sigalye G.S. Gunjgaonkar	AF-7	AF-7.01
	Optimisation of Operating Parameters for a Biogas Inducted Dual Fuel Diesel Engine	A.N. Venugopal T. Subramanyam B.S. Samaga	AF-8	AF-8.01
	Effect of some Design and Operating Variables on the Performance of a Hydrogen-Diesel Dual Fuel Engine.	Ganti Gopal F. Srinivas Rao K.V. Gopalakrishnan B.S. Murthy	AF-9	AF-9.01
	Biogas as Alternate Fuel for small HP Spark Ignition Engines	V. Dhruva R. Raghavan E. Sivaraman	AF-10	AF-10.01
	On the Utilisation of Ethanol as a Bifuel in a Multicylinder Automotive C.I. Engine.	S. Muthu R. Jayapal T.R. Jagadeesha	AF-11	AF-11.01
	Kerosene as a Supplementary Fuel for C.I. Engines - Prospects and Possibilities	V.P. Bhuyar D.K. Dixit M.R. Madan	AF-12	AF-12.01
	Analysis of Combustion aspects of Diesel Engine using Gobar Gas as Subsidiary Fuel	M. Balusamy S. Subramanian	AF-13	AF-13.01
	Use of Alternative Fuels for Multicylinder Diesel Engines	N.K. Jain	AF-14	AF-14.01
Engine Emissions	Evaluation of the Performance and Emission Characteristics of a Bio Gas Operated Diesel Engine.	H.B. Mathur M.K.G. Babu Y.M. Prasad Ved Singh	EE-1	EE-1.01
	Pressure Drop Studies on Packed Bed Axial and Radial Flow Converters	K. Ravendran R. Ravikumar G. Inayatullah	EE-2	EE-2.01
	Development and Application of Exhaust Gas Analysis Techniques for studies on small two-stroke Engines	Mukesh Saxena V.A. Zvonow H.B. Mathur	EE-3	EE-3.01
	Effect of Design Variables and Operating Conditions on Engine Exhaust Emission - A Computer Simulation and Analysis.	M. Balusamy S. Subramanyam	EE-4	EE-4.01
	Investigation of Kinetic NO Formation inside the Cylinder of a Spark Ignition Engine.	B.S. Murthy	EE-5	EE-5.01
	A Mathematical Model of a Compression Ignition Engine Operating with Charge Dilution	B. Haragopala Rao	CS-1	CS-1.01
	Investigation of the working of an Air Cooled Diesel Engine with Two Stage mixing and Conventional Operation with the help of a Mathematical Model on Digital Computer.	V.S. Efendiev N.A. Kerimov H.O. Dharival	CS-2	CS-2.01
Combustion Problems and Performance Analysis in Combustion Engines	Cycle Analysis for Hydrogen-Fueled Spark-Ignited Engine.	G.S. Kumaraswamy B.S. Samaga B.S. Murthy	PA-1	PA-1.01
	Combustion of low BTU Gas in the Gas Turbine of a Combined Cycle Power Plant	J.S. Rao G.C. Patnaik	PA-2	PA-2.01
	Some Experimental Studies on the Performance of a Stratified Charge Engine using Differential Carburetion	K.V. Murali B.S. Mahadevan K. Mahadevan	PA-3	PA-3.01
	Diesel Smoke and Energy Loss	B.P. Fundir V.A. Zvonow	PA-4	PA-4.01
	An Urban driving Cycle for Evaluation of Fuel Economy and Emission	K.K. Gandhi V.A. Zvonow H. Singh I.P. Singh	PA-5	PA-5.01
	Application and Evaluation of Fuel Soluble running-in Additives.	P. Singhal S.O. Nautiyal B.P. Fundir M. Abraham V.R.K. Sastry	PA-6	PA-6.01
	Effect of Fuel Injection and Atomization on Heat release and Performance of Supercharged Diesel Engine	A.S. Khatchian G.S. Labetkas	PA-7	PA-7.01
	Some Experimental Studies on Gas Turbine Combustion using, Air-blast Atomization	P. Govindarajan S.G. Mukherjee	PA-8	PA-8.01
	Development of a Jet Engine Combustion Chamber	A.K. Joubhari K.A. Damodaran M.O. Gupta	DS-1	DS-1.01
	Scope of Fuel Savings in small H.P. Diesel Engines	Dr. (Mrs) P.P. Parikh S.R. Rajagopalan V. Nagaraj K.P. Kumar	DS-2	DS-2.01
	Development and Performance Study on a Stratified Charge Combustion Engine using manifold injection for Pre-chamber.	G.R. Panduranga Gupta B.S. Samaga K. Mahadevan	DS-3	DS-3.01
	Investigation of Optimum Polar Diagram of Pressure Distribution for Piston Rings of I.C. Engine	G.G. Deshmukh H.O. Dharival	DS-4	DS-4.01
	The role of Tuffride surface heat treatment, on rolling contact fatigue Properties	G.S. Nanjunda Rao	DS-5	DS-5.01
	Two Stage Mixing to improve the Performance of Diesel Engines	V.S. Efendiev K.H. Ramachandrasa H.O. Dharival P.M. Menon	DS-6	DS-6.01
	A Predictive Model for wear of Piston Rings	P.O. Nautiyal S. Singhal J.P. Sharma	DS-7	DS-7.01
Experimental Techniques	Study of Carburettor metering characteristics using a Motored Engine to simulate Pulsating Air-Flow	G.S.R. Seshasayana Rao H. Sidheswar	ET-1	ET-1.01
	Heat Transfer in the Exhaust Valve of an I.C. Engine - A Simulation Study	B.T. Mijaguna	ET-2	ET-2.01
	Double run-out Technique for Mechanical Losses of small two stroke Engines.	R.L. Mendiretta S. Singhal V.A. Zvonow	ET-3	ET-3.01
	Mathematical Investigation of Fuel Injection in Diesel Engine and its Experimental Verification	K.R. Saravakadam H.G. Dharival	ET-4	ET-4.01
	Experimental Investigation on Injection Characteristics of a system with Jerk Pump and Pintle Nozzle	A.D. Pandya G.D. Tankaria D.T. Oza	ET-5	ET-5.01
	Determination of In-Cylinder Non-Homogeneity for S.I. Engine	B.P. Fundir V.A. Zvonow G.P. Gupta	ET-6	ET-6.01
PART-II: COMBUSTION				
	Flame Stability of Practical Multiport Aerated Gas Burners with and without Vitiation of Combustion Air	S.P. Sharma P.O. Baruah	CR-1	CR-1.01
	Ignition Characteristics of Polyvinyl Chloride (PVC) in an Oxidizing Atmosphere	R. Ramaprabhu K.A. Bhaskaran	CR-2	CR-2.01
	High Temperature Combustion Kinetics of Ethanol	K. Natarajan K.A. Bhaskaran	CR-3	CR-3.01
	Shock Tube Studies on the Ignition delay of Acetylene.	K.S. Krishnan R. Ravikumar	CR-4	CR-4.01
	Flame Propagation regimes and Correlation of Turbulent Burning Velocity Data.	U.S.P. Shet	CR-5	CR-5.01
	Correlation of Stability Data of Open Turbulent Flames.	A.V.N. Rao U.S.P. Shet M.C. Gupta	CR-6	CR-6.01
	Effect of reactive Additives on the Constant Volume Combustion Characteristics of Hydrogen-Air Mixtures.	K. Sreenivasulu G. Devapaul T.L. Sitharama Rao	CR-7	CR-7.01
	Experimental and Analytical Investigations of Ethylene Combustion.	K.M. Karuppannar V. Sriramulu K.A. Bhaskaran	CR-8	CR-8.01
	The effects of Inlet Temperature and Ambient Pressure on the Adiabatic Equilibrium Temperature in Reactions of CH ₄ and C ₂ H ₆ with O ₂ and Air at Different Mixture Strengths	R. Natarajan	CR-9	CR-9.01
Combustion of Coal	Fluidised Bed Combustion of Coal with and without Bed Material.	D. Ray B. Chakrabarty P.K. Nag	CC-1	CC-1.01
	Fluidised Bed Heat Transfer	N.K. Sane S.B. Digavade	CC-2	CC-2.01
Droplet Combustion	The Role of Transfer number in Heterogeneous Combustion	R. Natarajan	DC-1	DC-1.01
	On the description of Diffusion Flames in Terms of Conserved Scalars	R. Natarajan	DC-2	DC-2.01
	Soot Formation in a Wick Diffusion Flame of n-Heptane and Iso-Octane and the Effect of Metallo-Organic Additive Ferrocene and their Blends with Benzene.	B.S. Chittawadgi R.S. Mate	DC-3	DC-3.01
	Flame Spray Patterns in a Conical Chamber with Recirculatory Flow for Gas Turbine Applications.	P. Rama Mohan G.M. Varaprasad	DC-4	DC-4.01
	Studies on the Fuel Distribution Pattern in Swirling Air.	V. Narayana G.M. Varaprasad	DC-5	DC-5.01
	Numerical Prediction of Flow Characteristics behind flame holders.	S. Sampath V. Ganeshan	DC-6	DC-6.01
	Schlieren and Shadowgraphic Investigation of interference effects in Droplet Combustion.	R. Venkataran R. Natarajan U.S.P. Shet	DC-7	DC-7.01
	Experimental and Theoretical Analysis of interference effects in Droplet Combustion.	G.P. Sarathy R. Natarajan	DC-8	DC-8.01
	Analytical Investigation on Catalytic Hydrazine Thrusters.	V. Sankar K. Anantha Ram K.A. Bhaskaran	RC-1	RC-1.01
	Some aspects of Rocket Development in Aeronautical Applications.	M.L. Sidana D. Ramnath B.G. Amarnath	RC-2	RC-2.01
	An Experimental Study of L* Instability in Composite Propellants.	B.G. Kumar K. Ramamurthi K.A. Bhaskaran	RC-3	RC-3.01
	An Ignition Energy Model for Flame spread over Solid Propellant Surfaces.	K. Ramamurthi K. Sankaranarayanan	RC-4	RC-4.01
