

INTERNAL COMBUSTION ENGINES AND COMBUSTION

*Proceedings of the
XIV National Conference on I C Engines and Combustion
Institute of Armament Technology
Pune - 411025
December 8-10, 1995*

**Editor
V. RAMANUJACHARI**

CONTENTS

SESSION I — IC ENGINES

Emissions/Lubricants	1
1. Pollution from thermal engined passenger cars in urban areas <i>M.A. Charbonnier</i>	3
2. Reduction of fuel consumption by electronic engine management <i>G. Lemperle</i>	18
3. Controlling emissions from locomotive engines <i>Sumil Bajpai</i>	26
4. The effect of exhaust throttling on exhaust emissions of a two-stroke single cylinder spark-ignition engine <i>Sandeep Gupta, Prakash Acharya, Asif Masood, Omentete and P Mohanan</i>	32
5. The influence of fuel maldistribution on performance and emissions of multi-cylinder spark-ignition engine <i>H. N. Gupta</i>	37
6. Analysis of the combustion process of a diesel engine to predict and control the emission of nitric oxide <i>G. Devaradane and N. Baluswamy</i>	42
7. The measurement and analysis of the particulate matter from a turbocharged diesel engine. <i>P.W. Yates, M.D. Bassett, P.W. Foss and D. Douce</i>	49
8. Role of lubricant in environment friendly two cycle engines <i>Mukesh Gupta and Sudhir Singhal</i>	56
Alternative Fuels/Additives	63
9. Study of detonation in a non-conventional fuel in S.I. engine <i>H.N. Gupta and L.R. Govil</i>	65
10. Plant oil — a flexible option for diesel engine <i>P.K. Bose and K. Datta</i>	69
11. Performance study of a lean burn four stroke SI engine using gasoline — orange oil blend <i>S. Parthasarathy, B. Nagalingam and K.V. Gopalakrishnan</i>	75
12. Experimental studies using alcohol — petrol blends on a two stroke SI engine fitted with a heated catalytic converter <i>B.N. Jajoo and M.M. Deshmukh</i>	81
13. Importance and test methods of evaluation of fuel oil additives <i>K.S. Kambo</i>	87
ix	
Engine Components/Design	95
14. Design, development and optimisation of a spark ignition producer gas engine <i>P.P. Parikh, P.K. Banerjee, Shashikantha and S. Veerkar</i>	97
15. Design development of a simple electronic fuel injection system for a single cylinder four stroke spark ignition engine <i>Najibullah K. Omary, J.P. Subrahmanyam, T.S. Bhatti and M.K. Gajendra Babu</i>	108
16. Optimised design for port and valve gear for a single cylinder research engine <i>K.C. Vora, A.H. Rao and B. Ghosh</i>	114
17. Recent trends in development of hard coating on cylinder block for light weight high speed engine application <i>Sanjay Chaudhuri, S.B. Singh and M.V. Subba Rao</i>	123
18. Retrofit turbo charging of a diesel engine with ejector system at exhaust <i>S.K. Dalai, L.N. Sen, C.L. Dhamejani and M.V. Subba Rao</i>	129
Mathematical Modelling and Simulation	135
19. A critical appraisal of soot modelling approaches for diesel engine <i>T. Bhaskar and Pramod S. Mehta</i>	137
20. Mathematical modelling of monolith catalytic converter <i>M. Subramaniam, Prof. J.C. Dent and Dr. C.P. Garner</i>	144
21. Simulation of combustion process in a two stroke engine with in-cylinder fuel injection <i>A.J. Antony and B.S. Samaga</i>	153
22. Temperature distribution and thermal analysis in a diesel engine piston by finite element method <i>N.K. Samria, M. Vittalaiah and A.A. Hadi</i>	164
23. Transient temperature distribution and thermal stress field in a spherical shell using finite element method <i>A.A. Hadi and N.K. Samria</i>	172
24. Finite element model for stress analysis in crankshaft of any type of multicylinder IC engine <i>P. Shunmugam and M.C. Ramaswamy</i>	178
25. Analysis of convective and radiative heat transfer in low heat rejection direct injection diesel engine using a two zone model <i>P. Tamilporai and N. Baluswamy</i>	186
26. Three-dimensional simulation of flow, spray and combustion processes in a spherical chamber IDI engine <i>D. Mohankrishna and V. Ganesan</i>	191
x	
27. Computer modelling and experimental investigation of lean burn engine <i>G. Balamurugan, G. Nagarajan, M.V. Mahalakshmi and R.V. Seeniraj</i>	199
Engine Combustion, Performance and Test Methods	207
28. Chemical spark ignition and hot surface ignition of ethanol in DI diesel engine <i>V. Dhamotharan, S. Manivannan, G. Nagarajan and T.R. Jagadeesan</i>	209
29. Ethanol fumigation in a direct injection diesel engine <i>V. Umakanthan, G. Nagarajan and R.V. Seeniraj</i>	216
30. Cyclic fluctuations in a gasoline engine under idling conditions <i>D.S. Khatri, A. Ramesh and M.K.G. Babu</i>	223
31. Nozzle coking in DI diesel engines — a laboratory and field study <i>B.P. Pundir, S.K. Singal, Laxmi Narayanan and A.K. Gondal</i>	229
32. Some experimental studies on the performance of LPG fuelled 2-stroke SI engine using modified constant vacuum type carburettor <i>F.G. Kadoli and S.S. Hiremath</i>	236
33. Performance improvement of diesel engine by inlet air-heating <i>N.W. Kale and K.M. Watt</i>	243
34. Improved automotive part load fuel economy through late intake valve closing <i>M.D. Bassett, S.C. Blakey, P.W. Foss and P.W. Yates</i>	249
35. Performance studies on methanol fueled four stroke single cylinder dual spark ignition engine <i>Gurumoorthy S. Hebbar and P. Mohanan</i>	257
36. Investigation of fast burning of lean mixtures in spark ignited engines using in-cylinder catalytic coatings <i>S. Dhandapani, B. Nagalingam and K.V. Gopalakrishnan</i>	263
37. Life studies on 4-stroke diesel engine with water-diesel emulsions <i>C. Prabhakar Reddy and C.M. Varaprasad</i>	272
38. An experimental investigation of the effect of fumigation of intake charge on the diesel engine performance <i>Shamim Siddiqui, Nafees Ahmad II, Shah Shahood Alam and Khalid Zaidi</i>	277
39. Effect of injection timing on the performance of diesel and M/D emulsion as fuel in a DI diesel engine <i>N. Nedunchezian</i>	282
40. A comparative study on the performance of a low heat rejection engine with different levels of insulation <i>S. Jabez Dhinagar, B.N. Nagalingam and K.V. Gopalakrishnan</i>	290
41. Performance improvement in 2-stroke SI engine fitted with single reed valve in transfer duct <i>B.N. Jajoo, P.S. Adwani and A.A. Latey</i>	296
xi	
42. Comparative performance study of catalytic activation and thermal insulation on a single cylinder four stroke lean burn SI engine using methanol fuel <i>S. Parthasarathy, B. Nagalingam and K.V. Gopalakrishnan</i>	302
43. Experimental investigations on effects of injection timing and injector opening pressure on the performance of an LPG + diesel dual fuel engine <i>M.P. Poonia, A. Ramesh and R.R. Gaur</i>	308
44. Performance study and improvement in two stroke SI engine <i>P. Tamilporai, S. Subramaniyam and K.K. Ramalingam</i>	314
45. Development of Leyland diesel oil thickening test method <i>A.M. Kharche, D.M. Chaubey, Ved Singh, G.K. Sharma and N.R. Raje</i>	324
SESSION II — COMBUSTION AND PROPULSION	
Flames and Flame Propagation	339
46. Studies on laminar burning velocity of LPG-CO-Air mixtures using conical and flat flame technique <i>G. Sharnappa, H.G. Shivakumar and B.S. Samaga</i>	341
47. Flame stability in vitiated air <i>S.P. Sharma</i>	349
48. Stability of bluff body stabilised turbulent jet flames <i>U.S.P. Shet and S. Sundararayanan</i>	360
49. Prediction of time available for life safety in a building under fire <i>A.K. Gupta</i>	365
Fuel Spray/Droplets	373
50. A study of tulip sprays from annular injectors <i>D. Sivakumar, B.N. Raghunandan and T. Kumarasan</i>	375
51. Investigation of interference effects in burning methanol droplets by moire deflectometry <i>S. Stephen, D.K. Sharma and R. Natarajan</i>	383
52. Droplet combustion studies on dried concentrated distillery effluents <i>Nikhil M. Patel, P.J. Paul and H.S. Mukuunda</i>	389
53. Experimental study of the flame geometry during the interaction between two equal fuel droplets burning in side-by-side configuration <i>P. Balakrishnan, T. Sundararajan and R. Natarajan</i>	395
54. Effect of Reynolds number and ambient temperature on the burning of a single fuel droplet — a theoretical analysis <i>P. Balakrishnan, S. Ravikiran, T. Sundararajan and R. Natarajan</i>	401
xii	
55. A numerical study of droplet vortex interactions in a buoyancy dominated evaporating spray <i>T.W. Park, S.K. Aggarwal and V.R. Katta</i>	408
Industrial and Domestic Combustion Systems	437
56. Industrial experience of IIP multi-fuel burner with natural gas and dual fuel operation—case studies <i>H.K. Madan and P.N. Bhambi</i>	439
57. Effect of burner design parameters on the performance characteristics of low air pressure atomising burner using extra heavy grade fuel oil <i>T.N. Singh and K.M. Aggarwal</i>	447
58. Control of reducing atmosphere in a multi hearth furnace <i>G.N. Banerjee, P. Datta, H.K. Tripathy, J.N. Mohanty, A.K. Jouhari and D.N. Dey</i>	457
Propellants	467
59. Ignition of composite metallised propellant by convective heating <i>V. Suresh, Job Kurian and K.A. Bhaskaran</i>	469
60. Estimating kinetic parameters of composite propellants from thermogravimetric data <i>V.K. Rao, M.F. Bardon and R.A. Stowe</i>	476
61. Performance and combustion of highly metallised fuel rich propellants for ram rocket application <i>G.C. Pant and U.C. Durgapal</i>	482
62. Burning rates of aluminium and magnesium based fuel rich composites propellants <i>Haridwar Singh, S.S. Dhar and Thomas John</i>	492
63. Solid propellant erosive burning test facility <i>S. Krishnan and K.K. Rajesh</i>	503
Propulsion	511
64. Development and testing of a model annular combustor <i>P. Manjunath, J.D.A. Subramanyam, Job Kurian and V. Sriramulu</i>	513
65. An experimental study on disintegration of liquid jets <i>K. Ramamurthi and K. Nandakumar</i>	521
66. Prediction of turbulent round jets by energy dissipation models <i>V. Ramanujachari and R. Natarajan</i>	527
xiii	
Technical Papers (Late Arrivals)	537
67. Effect of vertical exhaust on smoke and engine performance of diesel engine <i>Dinesh Kumar and I.P. Singh</i>	539
68. Water/diesel emulsion as fuel for reduced emissions in diesel engines <i>P.N. Kadiresh, K. Balagurunathan and G. Lionel Christopher</i>	545
69. Heat transfer analysis of a cooled gas turbine rotor blade <i>M. Matcharajan, K.N. Seetharamu and Arun Prasad</i>	551
70. Experimental investigation of monolith type filter on the control of particulate emissions in a DI diesel engine <i>K. Balagurunathan, P. Srinivasa Rao and V. Ganesan</i>	558
Author Index	565
